New A-La-Carte Menus out now!

Did you know- we have an award winning restaurant? We'd like to invite you to come and sample Executive Chef, Nancye Pirini's latest creations. Our Summer A-la-carte menu includes fresh, seasonal products that will delight the taste buds. We have retained a small selection of your old favourites such as our famous Angus eye beef fillet and we have made it super easy to see which dishes are gluten free, vegetarian, dairy free or contain nuts. The full menu is available in your room compendium.

We're looking after our endangered Kokako Bird

Did You Know? The kokako is one of NZ's endangered and endemic (that is, found only in NZ) birds. It is a member of the ancient Wattle bird family and is not to be confused with the even rarer kakapo which is a flightless parrot now found only on islands with no predators. Before the introduction of foreign mammals such as rats, stoats, weasels, ferrets and possums, kokako were very abundant but its numbers have now fallen to only 650 pairs. The South Island kokako is considered extinct.

Kokako Project, Hunua Ranges

A joint project between the Auckland City Council and Department of Conservation, The Kokako Project is aimed at protecting and saving the kokako. Jet Park Hotel is proud to be a part of this project. During the months of November 2012 to March 2013, staff from Jet Park Hotel spend a day in the bush in the Hunua Ranges. They assist with checking and refilling bait stations to get rid of rats, possums and stoats, track clearing, and trail marking.
